NEWS RELEASE

Optimal Awarded \$810 Thousand Contract from Western Electric Utility

Vancouver, B.C. - Optimal Geomatics Inc., TSXV: OPG ("Optimal") a geomatics solutions provider to engineering and geospatial professionals, is pleased to announce the award of a contract from a major electric utility in Western USA. The project requires Optimal to undertake engineering evaluation and clearance studies for bulk transmission lines to derive safe operating limits for a range of climatic and power delivery loadings. The engineering studies will be based on transmission line survey models created by Optimal as part of a separate contract for the utility.

Optimal Geomatics specializes in the science and technology of gathering, analyzing, interpreting, distributing and using geographic information. Optimal applies the disciplines of surveying, mapping, remote sensing, geographic information systems (GIS), and global positioning systems (GPS) to provide solutions for engineering and geospatial professionals.
