NEWS RELEASE

Optimal Awarded US\$1 Million Contract to Map Transmission Line System for Major Electric Utility in the Southwest

Vancouver, B.C. - Optimal Geomatics Inc., TSXV: OPG ("Optimal") a geomatics solutions provider to engineering and geospatial professionals, is pleased to announce that Optimal has been retained by a major electric utility in the Southwest to map and provide engineering solutions for its transmission line system with a contract value of US\$1 Million. Working closely with this client, Optimal has developed methods and standards that optimize data quality, while allowing changes in schedule, as our client's priorities change. The data will be used to analyze and design overhead high-voltage power lines.

Optimal Geomatics specializes in the science and technology of gathering, analyzing, interpreting, distributing and using geographic information. Optimal applies the disciplines of surveying, mapping, remote sensing, geographic information systems (GIS), and global positioning system (GPS) to provide solutions for engineering and geospatial professionals.
